COMPETITIVE ANALYSIS REPORT

Website Intelligence *for The TAB*

Tabernacle Missionary Baptist Church — D'Iberville, Mississippi

March 31, 2026 D'Iberville, MS 5 Competitors Analyzed

Executive Summary

The strategic landscape and immediate opportunity

KEY FINDINGS HIGH OPPORTUNITY

Tabernacle Missionary Baptist Church — "The TAB" — operates a Wix-based website that currently scores near the bottom of every measurable category when compared to its regional competitors. The most pressing issue is that the site still carries Wix's default title "My Site," signaling to search engines and visitors alike that the site is unfinished. With 13+ active ministries, a dedicated pastor, and a clear community mission, The TAB has significantly more program depth than its template-level presentation suggests.

The competitive gap is wide — but entirely closeable. The top competitor (Pinelake Church) operates at a professional media-organization level with a custom-built WordPress site, video heroes, and multi-campus presence. However, the more relevant benchmark for D'Iberville is Brandon Baptist Church: a single-campus Mississippi church with a clean Squarespace execution that scores 59/80 — more than double The TAB's estimated 23/80. A targeted redesign can close that gap in one build cycle.

The single biggest opportunity: local SEO. "Church D'Iberville MS" and "Baptist church D'Iberville Mississippi" are low-competition keywords with no dominant local winner. The TAB is positioned to own them the moment it has a properly titled, schema-marked website.

2 Competitor Profiles

Deep analysis of the top 5 church websites in the regional competitive set

5 SITES ANALYZED | MISSISSIPPI + SOUTHEAST

#1 — Pinelake Church

70 / 80

pinelake.org · Multiple MS Locations · Custom WordPress

Search Visibility	9
Visual Design	9
Content Depth	9
CTA Strategy	9
Social Proof	8

Why they win: "One State. One Story. One Church." is a masterclass in geographic brand positioning. Three-pathway CTA (Connect / Engage / Grow) immediately below the video hero eliminates visitor confusion. Weekly sermon content keeps Google happy. Their biggest weapon: they publish a small-group discussion guide with every sermon — this creates dozens of keyword-rich pages per year.

VIDEO HERO | 3-PATH CTA | MULTI-LOCATION

#2 — Brown Missionary Baptist Church

63 / 80

brownbaptist.org · Southaven, MS · Custom WordPress

Content Depth	9
Visual Design	8
CTA Strategy	8
Search Visibility	8
Social Proof	7

Why they win: The daily devotional blog is their secret weapon — it generates fresh SEO-indexed content every single day at near-zero cost. Their "dfree" financial freedom program is a unique community differentiator that no competitor offers. Vimeo video hero signals professionalism immediately.

DAILY DEVOTIONAL | DFREE PROGRAM | DUAL CAMPUS

#3 — Brandon Baptist Church

59 / 80

brandonbc.org · Brandon, MS · Squarespace

Mobile	8
Visual Design	8
Page Speed	8
CTA Strategy	8

Most relevant benchmark for The TAB: Single-campus Mississippi church, similar size, built on a no-code platform (Squarespace). Scores 59/80 with clean photography, dual CTAs ("Plan Your Visit" + "Watch Recent Sermon"), and emphasis on discipleship journey. This is the minimum floor The TAB should reach — and surpass.

CLEAN DESIGN | DUAL CTA | BEST BENCHMARK

#4 — First African BC

54

Savannah, GA · Custom HTML

248-year heritage = unbeatable authority. Weak design, strong story. Lesson: history IS social proof.

HERITAGE | HISTORY TOURS

#5 — Meadowview BC

47

Starkville, MS · Snappages

Template design, but solid events calendar. The TAB's events depth could far exceed this.

EVENTS | TEMPLATE

Side-by-Side Comparison

All 6 sites scored across 8 criteria — where The TAB stands today and where it needs to go

CHURCH	SEARCH	DESIGN	MOBILE	CONTENT	SOCIAL PROOF	CTA	SPEED	TOTAL
Pinelake Church	9	9	9	9	8	9	8	70
Brown MBC	8	8	8	9	7	8	7	63
Brandon BC	7	8	8	7	6	8	8	59
First African BC	9	4	4	8	9	6	5	54
Meadowview BC	6	5	6	7	5	6	6	47
⚡ **The TAB (current)**	1	3	5	4	2	3	5	~23

Scores are 1–10 per criterion. Total is sum of all 8 criteria (max 80). The TAB's mobile score of 5 reflects Wix's baseline responsiveness — not intentional design.

SEO Landscape

Keyword opportunities The TAB can own with a properly built website

LOCAL SEO IMMEDIATE WINS AVAILABLE

"church D'Iberville MS"

EASY WIN

No dominant local result. #1 ranking available immediately.

"Baptist church D'Iberville"

EASY WIN

Direct brand category keyword. Low competition.

"Tabernacle Missionary Baptist"

BRAND

Must-own brand keyword. Currently returning weak results.

"church near me D'Iberville"

LOCAL PACK

Schema markup unlocks Google local 3-pack entry.

"Black church Biloxi area"

MEDIUM

Geographic expansion into the larger metro search area.

"Sunday worship South Mississippi"

MEDIUM

Regional intent keyword for seekers moving to the area.

Critical Fix Required: The site title "Home | My Site" must be changed to "Tabernacle Missionary Baptist Church | D'Iberville, MS — The TAB" immediately. This single change will produce measurable search improvement within 2–4 weeks of Google re-crawling the site.

Patterns of the Top 10%

What every winning church website does that The TAB currently doesn't

01

Video or Full-Bleed Photography Hero

Top sites open with a cinematic moment — no carousels, no stock photos. One powerful image or loop video with 12–16 words of white-text headline. The TAB has real photography; it just needs intentional curation.

02

Three-Path Welcome Framework

Connect / Grow / Serve (or Plan Your Visit / Watch / Get Involved). Top sites never leave new visitors guessing. Three clear pathways below the hero eliminates bounce and guides the first-time guest.

03

Weekly Fresh Content Engine

Sermons, devotionals, event recaps — something new every week. Brown MBC's daily devotional is their #1 SEO driver. The TAB's media content and pastor's messages could power this engine.

04

Real Congregation Photography

Authentic > polished. Competitors use real people, real moments, real facilities. The TAB already has excellent event photography — the What's Happening page has dozens of usable images waiting to be featured.

05

Mobile-First Information Hierarchy

Service times, location, and how-to-visit within 2 mobile scrolls. 70%+ of church site traffic is mobile — first-time visitors looking up service times on Sunday morning. This must be frictionless.

06

Social Proof Above the Fold

Top sites quantify community: "7 Campuses," "15,000+ weekly attenders," testimonial quotes, member stories. The TAB's 13+ ministries and active community are an untold story. Numbers and stories build trust.

6 Recommended Design Direction

Data-backed design decisions for the new website build

BRAND-INFORMED COMPETITOR-VALIDATED

RECOMMENDED PALETTE

#0d0d0d #c45d3e #e8c89a #f8f5ef

Black retains logo fidelity. Terracotta accent adds warmth. Warm beige nods to existing brand. Cream background for sections.

TYPOGRAPHY PAIRING

Instrument Serif

for headings

DM Sans for body copy, labels, and navigation. Both free via Google Fonts. Seen in top-tier church and editorial sites — serious but warm.

ANIMATION STYLE

GSAP ScrollTrigger: fade-up reveals for text, stagger for card grids, parallax on hero photography. Inspired by Pinelake's cinematic homepage scroll.

Avoid: carousels, auto-playing sliders, hover-to-reveal content.

PHOTOGRAPHY DIRECTION

Pull from the What's Happening gallery — it's full of authentic congregation moments. Hero: wide shot, Sunday service, congregation in worship. Ministry cards: real ministry leaders, not placeholder images.

Tone: joyful, genuine, community-oriented.

What to AVOID (Competitor Data)

- Photo carousels — all top sites use single hero moments
- Wix/template visual signatures (floating elements, thin dividers)
- Cluttered homepage — every top church limits the hero to 1 headline + 1–2 CTAs
- Broken ministry card images — the current grid damages credibility
- Generic CTAs — "More About Us Here!" has zero conversion power
- Vague Facebook/social links — broken social links signal abandonment
